

We live in a world where it is more easy than ever to connect with people on external levels while at the same time one may say that most people are very lonely with fewer deep relationships being built, which has led to all kinds of social problems

For example, the divorce rate has soared in recent decades in most countries of the world. The victim of this development are the children who have to suffer through the trauma of their beloved dad and mom separating, with deep wounds being afflicted to tender Hearts that close in many cases for the rest of the life, not trusting anybody fully in order to hurt again so deeply

This development resulted in more and more lonely Hearts with lesser Love flowing in close relationships, in a cold world where a large parts of the population suffer from health problems, with heart diseases being a primary factor for premature death in most countries on our globe

It is obvious that the rising external problems are rooted in internal issues, in suffering Hearts and therefore the healing of the soul is the only way to bring about lasting positive changes in every area of life. Once bonds of Heart are established, Love can flow freely and bring deep fulfilment in life so that people will not cling to external things but focus on cultivating Heart to Heart relationships

True Love is capable of transcending all kinds of differences and to overcome any walls which have been built in the Hearts of people in order to protect themselves. There is no other force that can move us as deeply as Love and connect us as strongly in profound relationships as True Love - once it is fully practiced with bonds of Heart firmly established

When Hearts are united in True Love they cannot be separated; they will continue to share with one another on ever deeper levels, including more and more people into heartfelt bonds, expanding realms of precious Love not only here on earth but throughout eternity

God's ideal of creation is fulfilled when every person is born into a loving family where he or she learns to love as a child from the example of their parents and becomes one in Heart not only with the father and mother but also with their brothers and sisters

Based on having learned to share deep Love in the family, every man and woman reaches maturity in Heart which enables them to become one as husband and wife as they choose to establish a family where the bond of their conjugal Love will never decrease but only increase on ever more profound levels of intimate sharing

Learning to love on ever higher levels is actually the greatest joy in life as loving relationships inevitably lead to the greatest happiness which will never end as they are built on pure True Love

The purpose of creation is the experience of the profound joy through becoming one in Heart with our Heavenly Parent and with one another as brothers and sisters of a worldwide family in which all members have learned to love unconditionally

There does not exist any higher ideal than the realization of God's design in creating the cosmos which contains all the elements necessary for us to live in happiness here on earth and in the spiritual world

True Love is the key to the fulfilment of our most noble dreams. Let us practice it wholeheartedly and build a world where Love flows freely among us without end uniting Hearts in eternal bonds which will never be broken but enable us to experience ever increasing joy and happiness
